CD SWING ANALYSIS

- A player thank you gift that will actually help your golfers improve their golf game.
- A player thank you gift that will have them thanking you!
- A Sponsor's dream gift due to extremely strong branding and call to action capabilities.
- An opportunity for the charity to reach your supporter via multiple communication messages in video, photos, audio, or letter form following the tournament! (Allow a minimum of 2 weeks later....maximum of 3 weeks later!)
- Using technology to “drive” your results!
- Can be repeated every year by changing the golf swing to be analyzed.....such as iron play, putting, chipping, or even sand shot play!

CD SWING ANALYSIS

- A 4-minute CD SWING ANALYSIS of every player in your tournament.
- Analysis is done by PGA Tour Instructor-Richard Hall. (See Bio on next slide)
- The video is captured of each player's swing, without slowing play at a designated PAR 5 TEE BOX.
- After the Tournament each video swing is then analyzed and compared to a PGA Tour Player for proper teaching and recommended changes by Richard Hall.
- The completed video analysis of each player is then dropped into a Proprietary software, along with Sponsor Video/Audio Benefits plus Charity Messages and burnt to one MASTER CD.
- The Master CD is then duplicated by the number of players in the field, stamped with custom designed logos and charity golf tournament notations, and slid into a very nice plastic jewel case for delivery to the charity by vendor.
- The Charity then mails each individual CD to players in the field.
